

**SOSTITUZIONE FLESSIBILE (A) - FLEXIBLE REPLACEMENT (A)
REPLACEMENT DU FLEXIBLE (A) - SCHLAUCHERSATZ (A)
SUBSTITUCION FLEXIBLE (A)**

- I - Avvitare perfettamente il nuovo flessibile al raccordo, con guarnizione interposta, facendo attenzione a non mollare la presa del flessibile (punto A in Fig. C), perché, un suo eventuale rientro al di sotto del bordo vasca, impedirebbe il recupero dello stesso.
- La distanza dal punto di collegamento di alimentazione al punto di fuoriuscita della doccetta sul bordo vasca, **NON DEVE ESSERE SUPERIORE A 70 Cm.**, in quanto **NON SAREBBE POSSIBILE** sostituire il flessibile B (cm.150)
- UK - Tightly screw the new flexible to the connection, with the gasket in between, paying attention not to loose grip on the flexible (point A in picture C), because an incidental recovery below the bath deck mixer will hamper its collection.
- The distance between the feeding point and the way out of the hand shower on the bath deck, **MUST NOT EXCEED THE LENGTH OF (70 Cm.)** due to the fact that will be **IMPOSSIBLE** substituting flexible B. (150 Cm.)
- F - Visser parfaitement le nouveau flexible au raccord avec garniture interposée, en prenant soin de ne pas lâcher la prise de flexible (point A figure C) car un éventuel escamotage au-dessous du bord de la baignoire empêcherait de récupérer le flexible.
- La distance entre le point d'alimentation et la sortie d'eau de la douchette **NE DOIT PAS ETRE SUPERIEUR A 70 Cm** car le flexible B (cm. 150) **NE PEUT ETRE CHANGE.**
- D - Den neuen Schlauch nach Zwischenlegen der Dichtung ganz auf das Anschlussstück aufschrauben; dabei darauf achten, den Schlauch (Punkt A auf Abb. C) gut festzuhalten, da er, wenn er unter den Wannenrand rutscht, verloren ist.
- Der Abstand zwischen Anschlusspunkt der Wasserleitung und Ausgangspunkt der Handbräuse auf dem Wannenrand, **MUSS NICHT 70 cm ÜBERSCHREITEN**, sonst **WARE ES NICHT MÖGLICH**, den Schlauch B auszutauschen (cm 150).
- E - Atornillar perfectamente el nuevo flexible al tubo, con las juntas adjuntas, prestando atención de no aflojar la presa del flexible (punto A in Fig. C), porqué un eventual reentreo debajo del borde de la bañera, no permitiría recuperarlos.
- La distancia del punto de conexión de alimentación al punto de agujero de salida de la ducha sobre la bañera **NO DEBE SUPERAR LOS 70 cm.**
En cuanto **NO SERÍA POSIBLE** sustituir el flexible B

IL TUBETTO E' IN DOTAZIONE.
 TUBE INCLUDED IN THE PACKAGING.
 LE TUYAU EST FOURNIT.
 DIESES KLEINE ROHR GEHÖRT ZUM LIEFERUMFANG.
 EL TUBITO VIENE ENTREGADO EN DOTACION.

Si raccomanda di pulire perfettamente
 del pavimento al di sotto della vasca,
 il rientro del flessibile completo di molla.
 Nel caso in cui il pavimento non sia rivestito
 oppure le stesche abbiano superficie ruvida,
 utilizzare un pannello liscio così come raffigurato.

We recomend to perfectly clean the floor
 the bathtub to facilitate flexible pipe and spring
 return. If the floor is not tiled or is covered with
 rough surface, please use a smooth panel as shown in
 the drawing.

Nous recommandons de nettoyer par
 le sol dessous la baignoire afin de faciliter
 du flexible avec le ressort.
 Si le sol n'est pas recouvert de carrelage
 ou ne soit pas lisse, positionner une plaque
 sur le dessin ci-joint.
